

Tres,

06/16/2009

Just wanted to thank you for a great learning experience. Having my 100 Ton Master Captain license, having 30 + years boating, and having Captained several 70 ft and larger yachts gives me no help when it comes to Performance boating. It's scary to think how many experienced boaters are out there thinking they know what they are doing when it comes to Performance boating. Thank you for opening my eyes. Every Performance boater regardless of experience should take your course!

With sincere appreciation,

Aldo Waters
USCG 100 Ton Master Captain
