Tres:

Thank you for a great two days learning about performance boating. I have owned many performance boats over many years. Your knowledge of boat design was key to making me understand why boats handle and react so differently at high speed.

My eyes are now open. What I thought was true, really was not. I now understand why and how to operate a performance boat safely.

I recommend your course without reservation. In fact, I believe your course should be required to insure boating safety.

Best Regards,
