Tres Martin Performance Boat School
2311 SW 31st St.
Fort Lauderdale, FL 33312

Dear Mr. Martin:

I enjoyed the two days we spent together at your performance boat school.

I am a licensed pilot and understand the need of education and precautions that need to be taken with any high performance machinery.

This will be my 2nd season with a high-performance boat. Last year, I felt I was very cautious in operating my 35' Fountain; for I did not want to put myself or anyone else at risk. Therefore, there were many times while running the boat that I was tense or not as relaxed as I would have liked to have been.

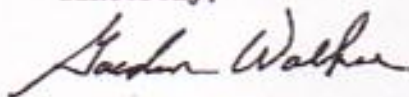

After attending your school, I feel this season, I certainly will be a safer boater and enjoy it more without the tension.

I feel I now know the dangers and also the causes; also most importantly, I understand the precautions that should be taken not to get into these situations, and also the proper corrective action to be taken in the event a situation arises.

I have inquired in the past with the Coast Guard and Power Squadron if there were any classes for high performance boats, but was told they were not aware of any.

I want to thank you again for the opportunity to take this class and I would highly recommend it to any one running a high-performance boat.

Sincerely,

W. Gordon Walker
