Mr. Tres Martin
Tres Martin's Performance Boat School
9440 West Highway 326
Ocala, FL 34482

Dear Tres,

I enjoyed speaking to you today. I just wanted to tell you, as I mentioned on the phone, I feel that your Performance Boating School is a tremendous asset to boaters of all levels from beginners to highly experienced boaters like myself. I have been boating for over 30 years and I learned some very interesting and helpful tips and techniques.

After taking the classroom training I have a complete understanding of what to expect and how a boat would and should react on the water. By the time I participated in the water portion of the class I felt like I had a clear understanding of what to expect. The class took any doubts and misconceptions out of my mind and made the water portion a pleasure. I was able to perform all that was taught in the classroom and apply it in the water.

This class is in my opinion one of the most valuable classes anyone can ever take to stay safe and have many years of enjoyable boating. I would highly recommend this class to anyone interested in any type of power boating.

Thanks again for all the great work your school does in keeping people safe and the sport of high performance boating alive.

Sincerely,

Michael Chera
